

manroland Goss web systems at WPE 2019

Tailored solutions for the Web Offset printing sector: Achieving more together. 4 you.

Since the merger one year ago, manroland Goss customers have profited from the know-how built up over decades by the two largest Web Offset Printing experts worldwide. Even more efficient Anti-Aging solutions for Web Offset printing presses, independent of manufacturer, as well as modular configuration possibilities for the High-Performance e:line newspaper printing systems or increased performance capabilities through automation: indeed the tailored solution concepts for newspaper printing and modern publishing houses are ensuring the customer's printing systems have their finger on the pulse of the times.

Which fields of development hold the potential for the future? With the new platform, "Maintellisense" from the house of manroland Goss, a practicable predictive maintenance application for deployment in daily printing business is coming on the market. Flexible Offset printing systems and additive manufacturing are expanding business fields for the printing press manufacturers as well as providing pioneering technologies for the Web Offset sector. Hereby, manroland Goss are making not only themselves, but also and above all their customers, fit for the future.

manroland Goss can be found at this years World Publishing Expo (WPE) in Berlin from October 8th to 9th, 2019 in Hall 21a Stand E.08. Customers can put questions and receive answers in personal talks on the Stand: manroland Goss web systems will welcome all the visitors this year with fantastic news concerning all areas of competence, in cooperation for the first time with GWS Printing Systems, the team of pre-owned press experts, and grapho metronic, the competence team for measurement and controlling systems.

Press and Interview appointments exclusively with Franz Kriechbaum, Managing Director, manroland Goss web systems, can be made under:
