

manroland Goss and QIPC-EAE settle disputed copyright infringement cases

The leading suppliers of control and measurement systems for web-offset printing presses, manroland Goss and QIPC-EAE, jointly announce their mutual settlement of certain disputed copyright infringement cases.

The cases concerned the add-on of third party solutions that interact with the proprietary PECOM software of manroland Goss. Such add-on solutions do require a respective interface license provided by the OEM. By their mutual settlement, the parties not only settled the pending court proceedings, they also primarily cleared the way for their customers, to run the printing presses in a legally undisputed manner.

The **manroland Goss Group** is the leading supplier of web-offset printing solutions. The company provides System Solutions for highly automated press and post-press equipment, Engineered Solutions for mechanical, automation and closed-loop upgrades for all types of presses, Service Solutions for parts and labor, tele-support and service level agreements 24/365, and E-commerce Solutions for all suppliers to the web offset industry and beyond.
