

Press Relocations With Ease

manroland Goss web systems masters the relocation of two 48-page LITHOMAN presses for Sattler Media Group

Since the merger last year, the manroland Goss Group – world market leader in web offset printing – has convinced as a comprehensive service partner. Highly professional and always in-time – that is what makes the manroland Goss service performance outstanding. Now the company has moved two LITHOMAN printing presses for the Sattler Media Group from Lübeck to Barleben.

The Sattler Media Group has purchased two LITHOMAN units in order to support the production site in Barleben. The high-volume presses for commercial printing help to increase the productivity, efficiency and flexibility of insert printing. For the relocation project, it was obvious to rely on the manufacturer of the printing press: “We relied on the competence and expertise of manroland Goss and our trust was more than rewarded. The project management services in particular were unbeatable”, says Marc Holzapfel from Sattler Media Group.

manroland Goss has relocated the two presses simultaneously. The project started in December 2018 and the printing presses will go into production already in spring/summer 2019. Once again, the manroland Goss Group proves to be a high-performance business partner for the printing industry.

The **manroland Goss Group** is the leading supplier of web-offset printing solutions. The company provides System Solutions for highly automated press and post-press equipment, Engineered Solutions for mechanical, automation and closed-loop upgrades for all types of presses, Service Solutions for parts and labor, tele-support and service level agreements 24/365, and E-commerce Solutions for all suppliers to the web offset industry and beyond.
