FILTER RETROFIT KIT for hand drum pump

- If contamination gets into the grease lubrication lines when filling the grease reservoirs on the grease pumps of your press, the grease lubrication is interrupted and press downtimes can be triggered!
- With our newly developed filter retrofit kit you can prevent this!
Now available at MARKET-X.

Our new filter retrofit kits

For all manroland commercial web presses.

installation location: hand drum pump for filling the grease pumps in the printing unit / folding unit.

The filter retrofit kit was developed to stop pollution in the grease lubrication circuit of the printing / folding units. This prevents blockages in the grease lines and interrupted grease lubrication.

Better quality. Attractive price.

Benefits

- Reduced contamination of grease lines, prevention of clogging
- Best possible reduction of grease lubrication-related machine downtimes
- OEM quality
- Attractive price

Do you see potential for improvement? We improve spare parts according to your wishes!

Customized. In quality. Price-wise.
