

New. Better. Faster.

# PARTIUM

The new parts identification app

- 5,000 to 10,000 spare and wear parts make researching and reordering via catalogs and parts lists very time-consuming. Don't lose the overview!
- With our new app, searching for parts becomes a whole new ordering experience. Simple and efficient! **PARTIUM. Find parts faster.**

## The new partium app

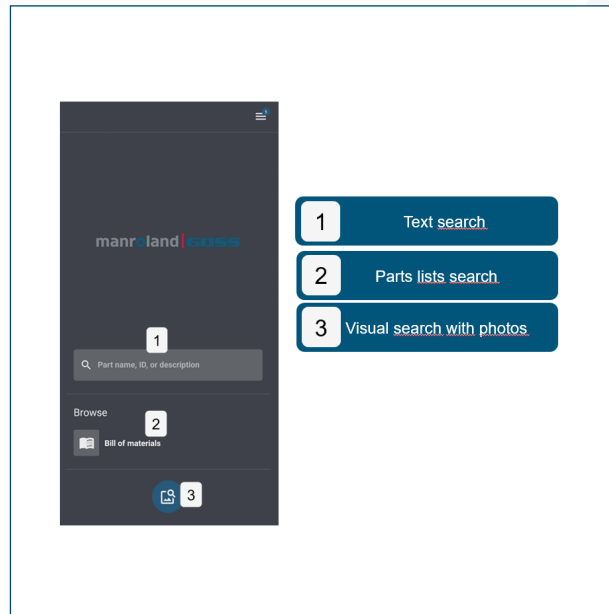

For many manroland presses and Goss presses (more info on page 2).

Find spare and wear parts quickly and easily. The partium app makes it possible. By image search and with the smartphone.

The partium app recognizes removed and installed parts.

Initial search results can be refined with additional features such as designation, dimensions, weight, etc.

**High quality search. Fast results.**

## Benefits

- Part identification via text search, parts list search and visual search.
- Not sure if you have identified the right part? The manroland Goss expert is just a click away!
- Reduced search time
- Fast processing of queries
- 6 months free trial period

Do you see potential for improvement? We improve spare parts according to your wishes!

**Customized. In quality. Price-wise.**
