## SHORT-STROKE CYLINDER for park brake

- The original cylinders installed in your machine are no longer available and would have to be replaced by a considerably more expensive successor solution in case of failure.
- Not with us! We offer you a **cost-effective repair service** of the original cylinder!  
**Send us your defective short-stroke cylinder for the park brake.**

### Refurbished short-stroke cylinder

For manroland newspaper presses.  
Type GEOMAN and COLORMAN.

Installation location: printing unit

Instead of buying the expensive successor version of the short-stroke cylinder, you can send your defective cylinder to manroland Goss for repair.

We will replace the seals at a reasonable price and you will get the product back as good as new!

**High quality. Reasonable price.**

### Benefits

- Significant price advantage:  
Repair price is approx. 40-50 % of the price of the successor version
- OEM quality
- Ideal price-performance ratio
- Uncomplicated processing & fast repair

Do you see potential for improvement? We improve spare parts according to your wishes!

**Customized. In quality. Price-wise.**

Write us an email or get in touch with your personal contact.
