

New. Better. Lower prices.

FORMER NOSE small

- The previous design of the former nose can lead to quality problems in the product due to the production method, shape and material.
- The new former nose is additively manufactured and can thus score with many improvements!
Now available at MARKET-X.

New development of former nose

For manroland Goss commercial web presses with sheet metal former.

Installation location: folder

Compared to the previous version, the new former nose is manufactured additively. In this way, procurement costs and design have been optimized.

Enjoy a price reduction and a quality increase!

Better quality. Lower price.

Benefits

- Longer service life
- Easier mounting due to additional chamfers at the transition to the former nose plate
- Fewer disturbances in the printing process
- Improved design results in less fold breakage and wrinkling
- Less product damage and marking
- Optimized price due to additive manufacturing

Do you see potential for improvement? We improve spare parts according to your wishes!

Customized. In quality. Price-wise.
