

New. Better. Lower prices.

## WEBBING UP KITE for full or half web heatset bright

The previous webbing up kites do not have sufficient durability due to the material and in relation to the price.

Benefit from numerous qualitative improvements and a lower price with our optimized webbing up kite! **Now available at MARKET-X.**

### Newly developed webbing up kite

For all manroland heatset illustration presses

Installation location: threading device

The fiber-reinforced material of the newly developed webbing up kite not only improves durability, but also reduces the manufacturing costs of the product at the same time.

With a reinforced molded part, the new webbing up kite also has a more stable guide for the paper web to be threaded.

**Better quality & lower price.**

### Benefits

- Fiber-reinforced material and more stable guide
- Better price-performance ratio
- Easy ordering via spare parts service or MARKET-X
- Available from stock at short notice
- Secured spare parts supply through manroland Goss

Do you see potential for improvement? We improve spare parts according to your wishes!

**Customized. In quality. Price-wise.**
